

Model. B X-C POLINI

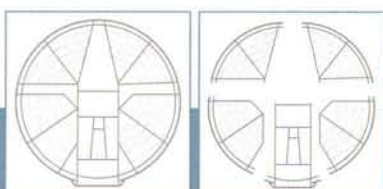

Italy's Polini is a company that manufactures small motorcycles and racing motorcycles. It was founded in 1883 and is being loved the most in Europe.

Its technology is applied to PARAMOTOR providing superior performance. Little noise and the strong power of 110CC will guarantee convenient and safe flying experiences for all fliers.

In addition, it is being loved by many fliers in the world because of its luxurious finish, sentimental design and reliable engine.

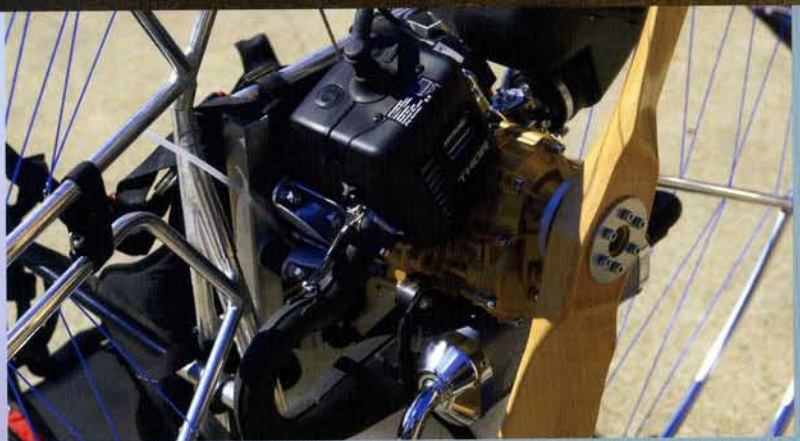

All frames can be separated by 5 stages. Separation, transference and assembly are easy and convenient anywhere.
